2020 Yard watering calendar

Water conservation begins with you.

Only water every three days.

Use the last two digits of your house number to determine your days to water.

Use water wisely.

Repair leaky hose bibbs and hoses. Even small leaks waste water.

Adjust sprinklers so only your lawn is watered and not the house, sidewalk or street.

Reduce grass in seldom-used areas with groundcover and plants that require less water.

Water your lawn in the morning to reduce water loss from evaporation.

Calendar from your water provider. Conservation program participation is optional.
