**ATTENTION: ELECTRICAL CONTRACTORS, SUPPLIERS AND
DISTRICT ENGINEERING, CONSTRUCTION & OPERATIONS
PERSONNEL**

SUBJECT: Electrical Service Requirement (ESR)

IMPORTANT: Effective immediately the PUD will no longer distribute physical copies of ESR Bulletins. To receive digital bulletin notifications, please visit the PUD website and join our mailing list: <http://www.snopud.com/?p=1174>

Several revisions have been made to the ESR since the last publication. Current revisions are shown in red with a black vertical bar on the left border. Brief descriptions of the revisions are as follows:

Section 2. General Requirements

Page 2-16 updated Figure 2-3 to correct diagram.

Section 4. Underground Service

Page 4-8 removed description of clearance requirements and instead referred to Figure 4-1.
Page 4-10 revised Figure 4-1 to provide a table of clearance requirements, and reduce the vertical clearance requirement between PUD power and gas services / low pressure gas.

Section 6. Generation Interconnection

Updated links to external documents and websites.

All requirements are effective immediately. In order for you to have the most current information available for reference, please always refer to the online version of the ESR.
