## MEET YOUR PUD COMMISSION

**R**ebecca Wolfe was elected to the PUD Commission in November 2018 to serve a six-year term, starting January 2019. She holds degrees in English (BA & MA), Organizational Leadership (PhD), and Environmental Law and Policy (Masters). She worked as a career educator in K-12, college, and university settings.

Ms. Wolfe has also served on the City of Edmonds' Economic Development Commission, Tree Board, and Mayor's Climate Protection Committee. Previous Board positions have included community service for music, art, and library programs. She represents District #2.

In the same election, Sid Logan was retained as PUD Commissioner, representing District #1, for a two-year term beginning January 2019. He was originally appointed to this position in March 2017 after Commissioner Dave Aldrich retired.

Tanya "Toni" Olson represents District #3 and is serving her third term on the Board.

Attend a Board of Commissioners meeting to learn about how the utility develops its policies and services. Meetings are scheduled at the PUD's Everett headquarters (2320 California Street in Everett) twice monthly. Upcoming meetings are February 5, February 19, March 5 and March 19. To view meeting schedules and agendas, visit [snopud.com](http://snopud.com) and click on *Commission Meetings* at the bottom of the page.

## Find Energy Savings in Your Home!

Use the PUD's Home Energy Profile tool to learn more about your home's efficiency. The free online assessment is easy and takes just a few minutes to complete. The review covers areas such as home weatherization, fuel sources, appliances and hot water use. You'll receive a free report of your home's energy use, as well as recommendations to lower your use, including information about conservation programs that can help save energy in your home. To take the assessment, visit [snopud.com/energyprofile](http://snopud.com/energyprofile).

**Power Outages: 425-783-1001**

## Education Programs

**STEM** – We’re proud to support Science, Technology, Engineering & Mathematics (STEM) efforts. We work to connect education and local industry for today’s students. Visit [snopud.com/CCL](http://snopud.com/CCL) to explore a variety of STEM careers at the PUD, including videos of a fisheries biologist and hydropower superintendent. You can also take a virtual field trip of the PUD’s Woods Creek Hydro Project.

**Art Contest** – Calling all K-12 students in the PUD service area! The PUD’s art contest offers the opportunities to tap your creative juices and energy knowledge. For this competition, we invite students to create a bookmark that illustrates how “I can energize life in my community.” For details as well as a template and entry form, visit [snopud.com/artcontest](http://snopud.com/artcontest).

**Photography Contest** – All high school students in grades 9-12 who live in Snohomish County or on Camano Island are eligible to enter. Students should base their photographs on the theme “Energy in Action.” Details and entry forms can be found at [snopud.com/photocontest](http://snopud.com/photocontest).

The deadline for both contests is Friday, March 15, 2019.

*Join Us at a Solar Workshop:*

### Community Solar Workshops Are Coming Soon!

Community Solar

Spring 2019

Our Community Solar site in Arlington is being prepped, and construction is expected to begin within the next few weeks. Interest has been strong, so community workshops are being planned for March in three locations within our service territory. We’ll be announcing dates very soon.

If you are interested in learning more about participating in this solar energy project, visit [snopud.com/communitysolar](http://snopud.com/communitysolar) and join our Community Solar email list so that we can provide you details as soon as they become available.

*After this weekend’s storm, I went outside Sunday morning to see my main power pole on the ground. This is a complex one with service transitioning from a pole to underground for power, cable, and phone services. Sunday evening I woke up to your crew working to install a new pole.... We often do not see the complexity of delivering power and watching them remove the old section from the ground, install a new one and starting to string the wire back up made me appreciate it even more.... What impressed me more was the amount of equipment required to replace this pole from a vacuum truck, drill/crane, gravel truck, bucket truck and what looked like a semi to deliver the pole.... I greatly appreciate their time and dedication. – J.C., Snohomish*

*Note: Total may not add up to 100% due to rounding.*

*Based on data received from the state of Washington on 11/8/18.*

<sup>1</sup>The PUD does not have coal or natural gas resources in its power supply portfolio. It does make market purchases to balance or match its loads and resources. These purchases, along with market purchases made by BPA, may incidentally include coal or natural gas resources, which are assigned to the utility.

<sup>2</sup>BPA-supplied.

<sup>3</sup>Includes biomass, other non-biogenic and petroleum

## PUD 2017 Fuel Mix

Washington state law requires utilities to publish their fuel mix for customers:

Coal Generation <sup>1</sup>	<1%
Hydroelectric Generation	90%
Natural Gas Generation <sup>1</sup>	<1%
Nuclear Generation <sup>2</sup>	9%
Other Generation <sup>3</sup>	<1%
