

137 FERC ¶ 62,017  
UNITED STATES OF AMERICA  
FEDERAL ENERGY REGULATORY COMMISSION

Public Utility District No. 1 of  
Snohomish County, Washington

Project No. 2157-188

ERRATA NOTICE  
(October 6, 2011)

On September 2, 2011, the Commission issued an “ORDER ISSUING NEW LICENSE”<sup>1</sup> for the continued operation and maintenance of the Henry M. Jackson Hydroelectric Project No. 2157. On September 30, 2011, the Public Utility District No. 1 of Snohomish County, Washington (District) requested correction of some typographical errors in the new license. The District mentions typographical errors in the license discussion, six license articles (401(b); 405(2); 406; 407(7), 412(2); 412(4)), and Appendix A (Water Quality Certification conditions sections 5.3.1(2) and 7.0(3)). This notice accepts all of the requested corrections, except the recommended change to Article 406, which will be addressed in response to the pending requests for rehearing of the license order. We take note of these corrections, though they do not affect the substance of the requirements of the license.

The District requests that the sentence in paragraph 119 beginning with “The revised plan now provides...” be replaced with: “The revised plan now provides for the District to maintain the portion of Forest Road 6122 on District-owned lands to State Forest Practice Standards, and maintain the portion on the National Forest lands to Forest Service road standards for high-clearance vehicles, for use as a public trail for hiking, mountain biking, and access to National Forest lands.” We take note of this correction, and further note that the approved revised recreation plan accurately reflects this requirement.

Jeff C. Wright  
Director  
Office of Energy Projects
