- Schedule 1 Municipal Street Lighting Service
- Schedule 3 Area Lighting Service
- Schedule 4 Municipal Owned and Maintained Street Lighting Service
- Schedule 5 Suburban Street Lighting Service

SCHEDULE 1 – MUNICIPAL STREET LIGHTING SERVICE

(1) AVAILABILITY: This schedule is available to counties and municipalities in all territory served by the PUD for street lighting service upon execution of a Municipal Street Lighting Contract.

This schedule provides for lighting from dusk to dawn for public streets, alleys, thoroughfares, and grounds, installed in accordance with PUD specifications.

(2) MONTHLY RATES:

Effective April 1, 2023

100 Watts	\$6.35
200 Watts	\$9.59
250 Watts	\$11.31
400 Watts	\$15.56

Effective November 1, 2023

100 Watts	\$6.41
200 Watts	\$9.68
250 Watts	\$11.41
400 Watts	\$15.70

All wattages are indicative of lumens as produced by High Pressure Sodium (HPS) lamps. The District may, at its own discretion, utilize alternative lighting technologies that it determines to provide similar lighting attributes.

(3) TERMS OF SERVICE: Service under this schedule is subject to terms as defined in the Contract, the PUD's Electric Service Regulations, and to Schedule 82 which defines the PUD's Adjustments, Terms and Conditions of Service, and Limitations of Liability.

(4) TAX ADDITIONS: The above rates are subject to proportional increases to compensate for any gross revenue tax imposed by any municipal body or other governmental body having jurisdiction upon the PUD.

(5) BPA COST ADJUSTMENT: From time to time the Bonneville Power Administration (“BPA”) adjusts its wholesale power and transmission rate to the PUD. At the discretion of the Commission, the rates in this Schedule may be adjusted to reflect BPA rate adjustments, either up or down, on the same date the BPA rate changes become effective. The adjusted rate will be developed by incorporating the BPA cost change into the Electric Cost of Service Model and rate design policies adopted by the Commission in the most recent rate proceeding.

Effective Date: November 1, 2023

SCHEDULE 5 – SUBURBAN STREET LIGHTING SERVICE

(1) APPLICABILITY: This schedule applies to Customers having metered electric services that are located within a Suburban Street Lighting Service Area established by Public Utility PUD No. 1 of Snohomish County. Customers that have financial responsibility for metered electric service, shall be charged for street lighting service under the provisions of this schedule.

(2) SERVICE PROVIDED: This schedule sets forth the rates charged by the PUD for the service of providing local area lighting from dusk to dawn for streets, alleys, thoroughfares, and grounds, as approved by the PUD and installed in accordance with PUD specifications. As this service is local in nature, the PUD does not undertake to provide this service at large or to the public generally. Current PUD policy also excludes all areas within incorporated cities.

(3) SUBURBAN STREET LIGHTING SERVICE UNIT: A Suburban Street Lighting Service Unit is the unit of lighting service provided under this schedule, based upon the currently most just, fair and reasonable approximation of quantifying this service in consideration of its nature. Responsibility for metered electric service located within a Suburban Street Lighting Service Area shall include one or more Suburban Street Lighting Service Units per month as described below in this paragraph (3).

Metered Electric Service Within a Suburban Street Lighting Service Area Provides Electricity to	Number of Suburban Street Lighting Service Units Charged per Month
Single Family Residence.	1 Unit
Dwelling Unit within a Multi-Family Residence. (For example: an apartment, an individual unit in a condominium, duplex or triplex).	1 Unit
Accessory Areas associated with Multi-Family Dwellings. Metered electric service to areas not used as a dwelling unit (For example: hallway lighting, laundry rooms, recreation rooms, other common areas, offices, supply rooms, maintenance shops, grounds and parking areas).	1 Unit per metered electric service
Other Dwellings and Abodes. (For example: Boats, Trailers, RVs).	1 Unit
All Other Uses.	1 Unit per metered electric service

Where a residential customer is financially responsible for more than one metered electric service located on a single property and one of the services provides electricity to a single family residence, other dwelling or an abode as described above, that customer shall be charged one (1) unit per month for each single family residence, and any other dwelling or abode served and shall not be charged additional Suburban Street Lighting Service Units for any metered electric services providing electricity to systems supporting the same single family residence (for example water and septic systems), or to associated outbuildings such as garages, sheds and barns not used for commercial or business purposes.

The PUD shall determine, at its sole discretion but subject to this schedule, whether or not a metered electric service located within the Suburban Street Lighting Service Area is subject to a Suburban Street Lighting Service Unit charge.

(4) MONTHLY RATES: One (1) Suburban Street Lighting Service Unit –
Effective April 1, 2023 - \$1.94 per month.
Effective November 1, 2023 - \$1.96 per month.

(5) TERMS OF SERVICE: Service under this schedule is subject to terms as defined in the Contract, the PUD’s Electric Service Regulations, and to Schedule 82 which defines the PUD’s Adjustments, Terms and Conditions of Service, and Limitations of Liability.

(6) TAX ADDITIONS: The above rates are subject to proportional increases to compensate for any gross revenue tax imposed by any municipal body or other governmental body having jurisdiction upon the PUD.

(7) BPA COST ADJUSTMENT: From time to time the Bonneville Power Administration (“BPA”) adjusts its wholesale power and transmission rate to the PUD. At the discretion of the Commission, the rates in this Schedule may be adjusted to reflect BPA rate adjustments, either up or down, on the same date the BPA rate changes become effective. The adjusted rate will be developed by incorporating the BPA cost change into the Electric Cost of Service Model and rate design policies adopted by the Commission in the most recent rate proceeding.
