Accountability for Workplace Culture

Our PUD values are at the center of our culture. Putting the safety, health, and well-being of our communities and those we work with is valued above all else and everyone on Team PUD must meet this commitment daily. Nothing we do in achieving our Mission is worth a single injury, and all who interact with us must feel they are valued and welcomed as individuals.

Everyone on Team PUD, in all positions, is accountable for achieving this safe and welcoming culture by:

1. Taking full ownership for the safety of themselves and their coworkers, while ensuring everyone feels valued and welcomed.
2. Taking action to identify and eliminate their own and others' at-risk behaviors, including the behaviors that may undermine another's feelings of being welcomed and valued.
3. Following all safety rules and regulations and ensuring the PUD's expectations for conduct and respect are maintained.
4. Openly sharing near-misses, safety learning opportunities, and ways we can learn to be a more welcoming place while encouraging others to do the same.
5. Utilizing Stop Work Authority to intervene with anyone, anytime, in any place.
6. Intervening or seeking guidance to stop actions that are harmful to the wellbeing, health, or sense of belonging of others, and which are detrimental to our PUD values.

Job Summary

Maintains the effective and efficient operation of the Advanced Metering Infrastructure with specific focus on the AMI Head End System (HES) and the Meter Data Management System (MDMS). Ensures that system performance of AMI meter readings, meter alarms and meter controls as well as data completeness and accuracy support the needs of customer billing, energy efficiency, grid operations, and grid planning.

Accountabilities

Accountability #1

Maintain the public's confidence in the quality of Advanced Metering Infrastructure by ensuring departmental expertise and a detailed understanding of the systems, processes and programs of the Advance Metering Infrastructure, keeping abreast of technological developments impacting AMI systems and recommending changes warranted by these technical developments; providing technical consultation to the District's management personnel, including presentation of feasibility and status of AMI systems reports, project cost estimates and economic analysis, technical alternative cost-benefit analysis, and similar responsibilities.

Accountability #2

Leverage technology and prudently managing costs to deliver outstanding value to our customers by developing, implementing, and completing the design and architecture of the Advance Metering Infrastructure systems by performing configuration, development and/or integrations with District systems, coordinating and developing work processes and standards as they relate to AMI systems, and similar responsibilities.

Accountability #3

Demonstrate outstanding value relative to cost to our customers by maintaining operational excellence of the Advance Metering Infrastructure systems, coordinating end-to-end testing of AMI-related systems and processes, working closely with Metering, Telecommunications and ITS to troubleshoot and resolve AMI system performance issues, working closely with Customer Service, Customer Accounting and ITS to resolve data quality issues, assessing system risks and developing mitigation plans, and similar responsibilities.

Accountability #4

Maintain powerful partnerships that serve as a valuable resource for our internal and external customers, partners, and stakeholders by providing services to enable the utility of the future by providing communications, education, outreach, and activities between internal Departments/Divisions at various levels of the organization, providing consulting services including

training to District staff, vendors, customers, consultants, and others in the area of technical specialty, planning, developing, and assisting in management briefings with the Manager and District Senior Management to ensure effective communication about project scope, budget, and status, providing support during storm responses or major emergencies, and similar responsibilities.

Accountability #5

Contribute to ensuring a highly effective team by providing mentorship, education, and growth of the AMI Analysts I-II, deliver the development of training materials for internal and external District employees, and similar responsibilities.

Accountability #6

Accountability #7

Accountability #8

Accountability #9

Accountability #10
