Accountability for Workplace Culture

Our PUD values are at the center of our culture. Putting the safety, health, and well-being of our communities and those we work with is valued above all else and everyone on Team PUD must meet this commitment daily. Nothing we do in achieving our Mission is worth a single injury, and all who interact with us must feel they are valued and welcomed as individuals.

Everyone on Team PUD, in all positions, is accountable for achieving this safe and welcoming culture by:

1. Taking full ownership for the safety of themselves and their coworkers, while ensuring everyone feels valued and welcomed.
2. Taking action to identify and eliminate their own and others' at-risk behaviors, including the behaviors that may undermine another's feelings of being welcomed and valued.
3. Following all safety rules and regulations and ensuring the PUD's expectations for conduct and respect are maintained.
4. Openly sharing near-misses, safety learning opportunities, and ways we can learn to be a more welcoming place while encouraging others to do the same.
5. Utilizing Stop Work Authority to intervene with anyone, anytime, in any place.
6. Intervening or seeking guidance to stop actions that are harmful to the wellbeing, health, or sense of belonging of others, and which are detrimental to our PUD values.

Job Summary

Works in depth to apply the long-term Bonneville Power Administration power contract(s) product. Analyzes river operations per the contract(s), as well as District-owned resources. Plans operations and output of the resources for next-hour through water year. Works alongside Snohomish PUD's real-time power scheduler, short-term trader, and others in Power Supply on resource levels and water management to meet District load and market strategy as well as achieve coherent short-term plans. This level has a high degree of job knowledge and the ability to perform independently and responsibly all work methods, procedures, and practices required.

Accountabilities

Accountability #1

Increase the public's confidence in the quality of the District's power scheduling operations and delivering objectives of Slice product by applying knowledge of District's current contract with BPA and District-owned hydro resources. Maintain submission of real time (next hour) and planning (10-day) runs to meet District needs, successfully resolving any issues encountered with minimal impact to plan. Utilize water year experience gained to deliver operationally sound runs next hour to 10-days out. Assist in recommending longer term contract and resource levels.

Accountability #2

Increase the public's confidence in the quality of the District's power scheduling operations by continuity of communications, both written and verbal, of shared information across various time horizons from next hour to ten days out. Accountable for clear and concise communication with the Team on hourly, daily, and three-month contract and hydro resource levels. Provide thoughtful communication with outside entities as needed to ensure understanding of changing data while ensuring confidentiality of data and information. Appropriate information is logged. Partner with Lead Hydro Scheduler in training of Hydro Scheduler I. Present overview of Hydro Scheduling, aspects of the job, and the BPA contract to others.

Accountability #3

Increase the public's confidence in the quality of the District's power scheduling operations by delivering evaluation and analysis of Slice operations for 10-day to balance-of-month time frame and other District owned hydro resources. Utilize knowledge of trends in weather, operations, and resource output to anticipate changes to volumes and constraints. Review seams issues between study data and recommend adjustments or support of current data. Engage in look back as needed at actual data to verify if outcome was as intended or not. Partner with Lead Hydro Scheduler to solve integration of new seasonal constraints, new business rules, or new industry standards.

Accountability #4

Deliver exceptional value to our customers through continual improvement and innovation by reviewing application of the Slice product, hydro resources, current practices, and seasonal operations and recommend efficiencies/improvements to align with desire for continuous improvement. Collaborate with the Team and/or Hydro Scheduler Lead to ensure consistent understanding of operations, optimal product delivery, and minimizing spill and similar responsibilities.

Accountability #5

Deliver exceptional value to our customers through responsible resource planning and management by assisting with delivering up-to-date water forecast volume information from various regional forums (such as the Technical Management Team and the current Slice contract forum) to maintain overall understanding of operations from stakeholders. Review forum (and other) information to solve planning run issues including alignment with forecast District load and or planned contract volumes and similar responsibilities.

Accountability #6

Increase the public's confidence in the quality of the District's power scheduling operations by improving overall understanding of various Power Scheduling Department, District and Regional work processes as they relate to and/or affect hydro scheduling, the District, and BPA. Solves integration of new seasonal constraints, new business rules, or new industry standards.

Accountability #7

Contribute to a community-centric and inclusive culture with empowered, engaged employees by ensuring a positive team culture through inclusion, collaboration, transparency, respect, responsiveness, and compassion and similar responsibilities.

Accountability #8

Accountability #9

Accountability #10
