Accountability for Workplace Culture

Our PUD values are at the center of our culture. Putting the safety, health, and well-being of our communities and those we work with is valued above all else and everyone on Team PUD must meet this commitment daily. Nothing we do in achieving our Mission is worth a single injury, and all who interact with us must feel they are valued and welcomed as individuals.

Everyone on Team PUD, in all positions, is accountable for achieving this safe and welcoming culture by:

- 1. Taking full ownership for the safety of themselves and their coworkers, while ensuring everyone feels valued and welcomed.
- 2. Taking action to identify and eliminate their own and others' at-risk behaviors, including the behaviors that may undermine another's feelings of being welcomed and valued.
- 3. Following all safety rules and regulations and ensuring the PUD's expectations for conduct and respect are maintained.
- 4. Openly sharing near-misses, safety learning opportunities, and ways we can learn to be a more welcoming place while encouraging others to do the same.
- 5. Utilizing Stop Work Authority to intervene with anyone, anytime, in any place.
- 6. Intervening or seeking guidance to stop actions that are harmful to the wellbeing, health, or sense of belonging of others, and which are detrimental to our PUD values.

Job Summary

The IT Project Manager II manages and coordinates the planning, development, organization, communication, and implementation of small to medium-scale projects. Projects impact one or more business functions, have moderate budgets, and require work and coordination of both internal and external individuals and groups. Utilizes standard project management controls for project development, document management, cost control, tracking of schedules, negotiation, and conflict resolution. Serves as the primary point of contact and conduit for communication between the project proponent, various internal business groups and external resources. A professional in the field of project management with a primary job role of leading teams through project phases or iterations (e.g., initiating, planning, execution, closure, or sprint cycles). Manages information technology projects to implement, upgrade, enhance, or replace critical software solutions and information technology infrastructure. Understands and can apply various project management methodologies (e.g., Project Management Body of Knowledge (PMBOK), waterfall, Agile and combinations) to optimize approach best fitting project objectives and team dynamics. Skilled in leadership techniques including facilitation, communication, and conflict management in support of building strong, results-oriented teams. Understands root-cause analysis and can lead process to identify, analyze, and resolve risks and issues. Coordinates cross-functional teams of technology and business professionals across the organization.

Accountabilities

Accountability #1

Manages the successful implementation of small to medium technology project initiatives supporting effective, reliable and fiscally responsible utility operations and customer service solutions. Leads sub-teams under the direction of more experienced project managers on larger projects. Works with sponsors, stakeholders, technical experts, subject matter experts and external vendors to define scope, budget and resources. The project manager leads the effort to successfully implement solutions realizing the goals of the initiative in an efficient and fiscally responsible manner. Effectively prioritizes work of the team as well as their own work to simultaneously manage multiple projects. Responsible for developing detailed project plans, managing schedules, prioritizing work, controlling budgets, leading teams, and similar responsibilities.

Accountability #2

Ensure transparency and the trust of our customers and stakeholders through financial management. Develops accurate cost estimates to establish project budgets; leads formal Request for Proposal (RFP) processes; supports contract negotiations; monitors and controls project progress and expenditures; identifies variances and potential impacts; recommends changes to objectives and approved budgets, and similar responsibilities.

Accountability #3

Utilizes leadership skills and techniques to develop highly effective and diverse cross functional teams (technical, business, and vendors). Develops a shared vision ensuring the team works together to complete goals of stakeholders and sponsors. Facilitates transparent and supportive communication fostering an open and inclusive environment which maximizes the potential of team members. Manages work of project teams to meet or exceed the expectation of sponsors and stakeholders by: Building relationships; ability to manage teams in a matrixed environment; training team on the project approach; motivating team to achieve success; managing daily activities and correcting issues related to performance; providing support to help overcome obstacles in order to complete the vision, and similar responsibilities. Understands when to seek guidance and escalate for complex issues, and similar responsibilities.

Accountability #4

Ensures effective communication of project status and developments to inform all levels of the organization. Helps identify and supports communication plans to inform internal stakeholders and external customers of project impacts. Provides timely and accurate status updates to executive sponsors; supports development of Organizational Change Management plans, and similar responsibilities.

Accountability #5

Ensures management of project risks and resolution of issue to provide effective cost management, implement on schedule and deliver planned scope. The project manager is the the first point of contact to identify and facilitate resolution of issues. Responsible for root-cause analysis, negotiations, ability to adapt, problem solve, handle escalations, and similar responsibilities.

Accountability #6

Ensures project success by maintaining focus on quality; monitors and controls project progress and expenditures; identifies variances and potential impacts, recommends changes to objectives and approved budgets. Utilizes the project schedule, budget reports, team interactions and contracts to ensure the project and solution are adhering to scope and realizing intended benefits. Identifies and monitors key performance metrics, utilizes industry best practices, demonstrates expertise in project methodologies, and similar responsibilities.

Accountability #7

Establishes the project approach by analyzing and determining the appropriate methodology to use to maximize results in delivering technology solutions in the most effective manner utilizing the skillset of the project team and vendor. This may include waterfall, Agile or similar methodologies. Develop the project plan, determine iterations, prepare team, monitor performance, and similar responsibilities using best practices and project management tools. Provide mentorship to IT Project Manager I in the establishment of project approaches for their projects.

Accountability #8

Ensures high functioning team through leadership and facilitating Conflict Resolution to achieve project goals while cultivating a culture of caring, mutual respect and trust. Project outcomes are dependent on the working relationship of the team and agreement across stakeholders and sponsors through: Negotiation skills; Coaching and mentoring; Conflict resolution techniques; Ability to see potential issues in advance to avoid conflict, and and similar responsibilities.

Accountability #9

Ensures the District leverages technology and process improvements to deliver solutions now and for the future. Establish and maintain strategic relationships with technology providers through effective vendor management. Work with procurement, legal and IT management experts to establish effective contracts and key performance indicators. Manage vendor performance throughout the project. Work with IT managers and subject matter experts to establish ongoing support and escalation plans, and similar responsibilities.

Accountability #10
