

PUD Awarded Nearly \$20M to Assist Vulnerable Customers

Distributed by the Washington State Department of Commerce and funded by the state's Climate Commitment Act, grant funds totaling nearly \$20 million will be disbursed to low- and moderate-income households over the next year.

Customers under 150% of area median income threshold take priority

The program has two phases:

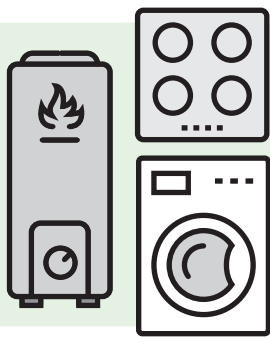

Phase 1

\$13.7 million will provide nearly 70,000 PUD customers with \$200 bill credits.

Learn more about income requirements and apply for the bill credit at snopud.com/ccs

Phase 2

\$5.3 million will support electrification of homes.

The PUD's Home Electrification and Appliance Rebate (HEAR) program will provide eligible customers with energy-efficient washers, dryers, induction stovetops and heat pump water heaters.

The program above is supported with funding from Washington's Climate Commitment Act.

A Fun Way to Help Neighbors in Need

Sign up today for the Oct. 13 Run for Warmth 5K or 10K in Snohomish. Part of your registration fee helps those struggling with energy bills. For more information, visit snopud.com/runforwarmth

PUD Energy Assistance

The PUD offers income-qualified bill assistance to eligible customers. For more information, visit snopud.com/discounts

Lee Banghart, Champion of Change

It’s said the one constant in life is change. For PUD Program Manager Lee Banghart, that means job security. Lee works with groups inside and outside of the PUD to keep up on trends and future capabilities of digital customer experience tools.

Lee enjoys overseeing thoughtful improvements to the PUD’s customer-experience platform, MySnoPUD. He also works closely with internal teams to ensure changes are tested and rollouts go smoothly.

“Lee’s positive attitude is well known, and he goes out of his way to create an encouraging environment where people can deliver their best,” said John Hoffman, PUD Assistant General Manager Customer and Energy Services.

Planning an ADU or new home? Join Green Home Rewards

Ask your builder if they’ve joined our Green Home Rewards program. It’s all about rebates for energy-efficiency standards that can save you money for years to come.

Learn more at snopud.com/greenhomes

Support Renewable Energy

The PUD’s Carbon Solutions program supports clean energy production with Renewable Energy Credits, or RECs. Every REC purchased means 1,000 kilowatt-hours of energy generated by a renewable source has been sent to the grid.

To enroll, or learn more, visit snopud.com/carbonsolutions

Full Steam Ahead

Rebates up to \$250 on qualified washers and dryers.

Keeping the Public Safe from Wildfires

To keep our communities safe from the risk of wildfires, the PUD has developed a Public Safety Power Shutoff (PSPS) plan that outlines when and where power should be de-energized in the rare instance extreme fire conditions are combined with high winds. Of special consideration are heavily wooded areas such as Darrington, Index and Gold Bar.

Visit snopud.com/wildfiresafety for more information on the plan.
