

## Application Checklist:

You should submit your online application and all corresponding documentation by March 31, 2026. A completed application is made up of:

- **Completed [Budget Template](#)**
  - Be sure to also upload quotes, assessments or estimates that justify your budget and award request.
- **[Completed Timeline Template](#)**
  - Clearly define your scope of work and key milestones in your project. All projects are required to complete within 18 months of receiving initial funding disbursement (up to 75%).
- **If you are requesting funding for new or upgraded electrical service, you must submit a [New Service Questionnaire \(NSQ\)](#) and upload a copy with your application.**
  - You will be emailed a pdf of the NSQ once it completed.
- **Signatory information and signed terms and conditions**
  - Must be signed by the applying organization. If applicant is applying on behalf of a PUD non-residential customer through a formal partnership, must obtain signature from both parties.
- **Quotes, assessments, estimates, or bids that justify your Electric Pathways Budget, if applicable.**
- **For projects requesting funding for new or upgraded electrical service only**
  - If you are requesting funding for new or upgraded electric service to support EV charging infrastructure, you must have already submitted your New Service Questionnaire by the time of application. Please upload a copy of the New Service Questionnaire that you submitted.
- **Optional - You may also upload community letters of support for your project if you choose to.**
