

THE WIRE

SEPTEMBER 2026  [SNOPUD.COM](https://snopud.com)

September is National Preparedness Month!

Storm season is just around the corner, and this month is the perfect time to take action before the wind, rain, and snow arrive. Spending a little time now can help keep your household safe, comfortable, and connected when storms hit.

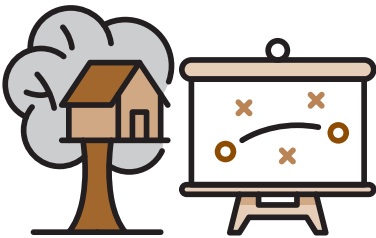

Build or update your emergency kit with water, nonperishable food, flashlights, batteries, medications, and important documents.

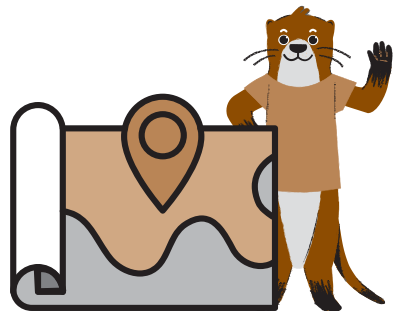

Watch Zip pack an emergency kit and learn more at snopud.com/emergencykit

Sign up for outage alerts to receive critical information when you need it most. Sign up and learn more at snopud.com/outages

Create a family emergency plan so everyone knows where to go, how to communicate, and what to do during an emergency.

Make a backup plan if you rely on electricity for medical equipment. Identify alternative locations where you can access power if needed.

Don't wait! Spend just 30 minutes this month preparing your household. A little preparation today can make a big difference when the next storm rolls through.

View/report outages at OUTAGEMAP.SNOPUD.COM or report at (425) 783-1001

Employee Spotlight: Shayne Moore

Shayne Moore has made a lasting impact on customers by leading the development of a platform that simplifies how customers access energy-efficiency programs and services through their MySnoPUD accounts. His work has helped make processes faster, more transparent, and easier to navigate, allowing customers to apply for programs, track project status, and access information without needing to call for updates. Through his focus on innovation and continuous improvement, Shayne has helped create a more seamless customer experience while expanding access to energy-saving opportunities across the community.

Planning a new home or ADU? Build smarter. Save longer.

If you're planning a new home or accessory dwelling unit (ADU), have your builder look into Green Home Rewards. The program offers incentives for energy-efficient construction that can help lower energy costs and improve comfort for years to come. Learn more at snopud.com/greenhomes

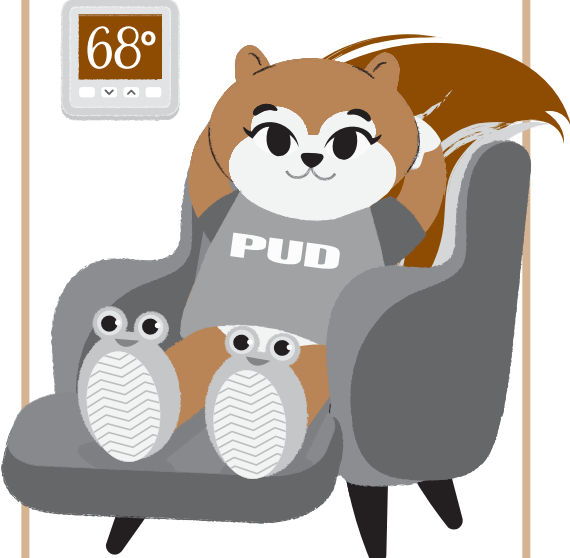

Fuel Mix:

In 2024, nearly 70% of the PUD's power came from renewable hydropower, including the PUD's own Jackson Hydroelectric Project in Sultan. Visit snopud.com/fuelmix for more information.

Easy Ways to Save: Sealing!

Seal drafts around doors and windows with caulk or weatherstripping to help keep heat in.

Save Up to \$2,500 on a Heat Pump!

Keep your home cozy year-round while squirreling away big energy savings. Learn more: snopud.com/heating
